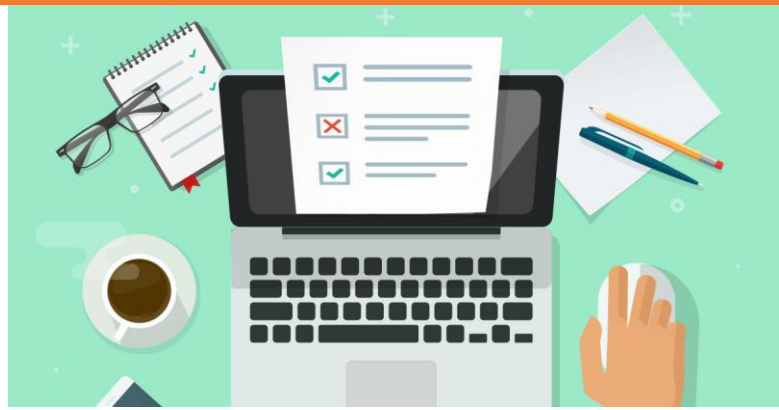
MANDATORY PRE-ENROLMENT SURVEY (Only MEE, MATT, MET & Cyber)



IMPORTANT to all students :

MANDATORY PRE-ENROLMENT SURVEY

Deadline January 26!!!

Pre-enrolment questionnaire at the ETSETB's Intranet: Pre Enrolment Questionnaire

It's important to give an accurate answer so we can make a well adjusted forecast of the groups needed in each subject, minimizing the issues that might happen during the enrolment. Even so, the answers are not binding and you can make changes during the enrolment.

It's important to give an accurate answer so we can make a well adjusted forecast of the groups needed in each subject, minimizing the issues that might happen during the enrolment. Even so, the answers are not binding and you can make changes during the enrolment.

IMPORTANT : **If the admissions committee decides that you need to enroll on a Bachelor's degree or any specific subjects, these are mandatory and you must enroll on them in your first semester. Your enrolment questionnaire must be completed in accordance with the admissions committee's decision. You have time to modify until July 10th**

Before answering you should take the next points into account:

- Once you finish selecting the subjects, you must click on: "**REGISTRAR PREMATRÍCULA (Register Pre Enrolment)"** (it's a button on the right side, either top or bottom). Once you click this button the answer is valid, but you can activate the questionnaire again and make changes until the deadline.
- You can consult the Class Schedules at: Class Timetables
- Remember that in this questionnaire you only choose the subjects, the groups will be chosen at the moment of enrolment.
- You will be able to check the dates for enrollment and the rest of enrolment related procedures in the Enrolment and Academic Management Calendar for your program.

E-secretaria

The e-secretaria is the platform where you must request changes in your enrolment, certificates, update your personal data, introduce a Bank account, download your enrollment documents as well as consult the forms and payments.

1. The student must have accepted the master in our pre-enrolment system
   (Deadline today January 26!!!)
1. The student must have entered e-secretaria correctly.

Enrolment information

If I am admitted, will I be able to enroll in the master's degree, even if I have still pending to pass the Bachelor Thesis(TFG)to be graduated?

Only those students that can officially prove that they have paid the Bachelor Diploma fees will be allowed to enroll

But only for UPC BACHELOR students:

The modification of the ETSETB masters 'regulation (*) establishes that **it will only be allowed to enroll** the Bachelor's UPC students (on the days established for each semester without the need for a place reservation) **if the only remaining ECTS to pass are exclusively those of the bachelor thesis (TFG)** and only if the student can prove that the BACHELOR Thesis is correctly enrolled. All the other ECTS have to appear officially passed in your academic transcript in order to be allowed to enroll.

(*) the Point 1.2. Access to the master's degree studies of the NAGRAMA establishes that "The center responsible for the degree may define additional conditions on the credits pending, or not allow access"

In view of the special circumstances, the necessary means will be enabled so that the late readings can begin the master's degree only if it's approved by the master TUTOR and master coordinator by requesting and **paying the Place Reservation fees** in the event of the day of registration they are not yet graduated.

- ✓ Students that **present their bachelor final thesis after enrollment date :**
  - ✓ These students must contact their tutor to inform of this situation and determine the subjects they will follow.
  - ✓ Request, through E-SECRETARIA, the deferring for one or two semesters. You must access https://esecretaria.upc.edu, with the username and password you used for paying 300 euros. Once there, you must click on "Procedures --> Scope:Others" at the left menu, and fill in the fields "I hereby state" (saying that you have been admitted to the master for this semester) and "I request" (saying that you want to begin on FEBRUARY or SEPTEMBER) Afterwards, click on the button "submit"
  - ✓ Will be allowed to enroll later (loosing the ranking enrollment order: with no right to reserve places in any specific subject or groups) but February 27 **the latest!**
  - ✓ They must proved with the **DIGITALLY SIGNED certificate** that they have paid the fees for the issuing of the Bachelor's diploma. Otherwise they won't be able to enroll.

Who sets the fees

The fees for official master's degrees are regulated in Article 81.3.b of Organic Law 6/2001, of 21 December, on Universities, in the wording of Royal Decree-Law 14/2012, of 20 April. In the case of studies leading to official degrees that are valid throughout Spain the public fees are set by the Government of Catalonia, within the limits established by the General University Policy Conference. The fees are not approved until the beginning of July, before the start of the academic year, so the total amount to be paid cannot be determined exactly until the moment the student enrolls.

If you need to re-enroll the credits that you have not passed, there is a **surcharge when you enrolll for the second, third or fourth time.**

6. Academic progress on master's degrees

(Approved at the plenary session of the Board of Trustees on 11 June 2013)

Introduction

Article 46.3 of Organic Law 4/2007, of 12 April (BOE of 13 April 2007), modifying Organic Law 6/2001 on Universities (BOE of 24 December 2001) and Article 123 of the Statutes of the Universitat Politècnica de Catalunya, approved in Decision 43/2012, of 29 May (DOGC no. 6140, of 1 June 2012), attribute to the Board of Trustees the power to establish the rules that govern academic progress requirements for students at the University.

The University must aim to make good use of the public funds entrusted to it, ensuring that its graduates acquire an appropriate academic level and fulfilling its role as a public service by facilitating admission to as many students as possible. It must establish mechanisms for ensuring that its students acquire an appropriate academic level and must be sufficiently demanding to make responsible use of the resources placed at its disposal.

6.1. Scope

These regulations are applicable to all students enrolled in official master's degrees at the UPC. The conditions for joint master's degrees between the UPC and other universities will be established in the specific agreement applicable in each case.

6.2 Minimum academic progress during the first academic year

Taking into account the different types of master's degrees, the school or university research institute shall establish and publish the minimum academic progress requirements for the first year of a master's degree or double master's degree. Notwithstanding the above, as a general rule students must obtain at least 15 ECTS credits.

The minimum academic progress requirements must be met irrespective of the terms of enrolment and any recognised credits awarded: the committee will consider all credits for which students are enrolled, including subjects and/or learning activities from the master's degree curriculum and complementary activities established by the school or university research institute in each student's personalised academic pathway. Validated, adapted, recognised and waived credits will not be considered in the case of academic progress.

Students who do not meet the minimum academic progress requirements will not be permitted to continue their degree at the UPC.

6.3. Maximum period of study

Each school or university research institute shall establish and publish the maximum study period granted to students in order to obtain the corresponding degree or double degree.
